Profile

I am a highly experienced IT professional with over 7 years of experience. My expertise includes managing and maintaining the System Center Configuration Manager (SCCM), Azure, Exchange, and Security. My experience includes working with clients in all industries, from small businesses to large enterprises, to ensure their technology needs are met. I am also highly qualified in the security field, having obtained Cybersecurity certifications such as CHFI (Computer Hacking Forensic Investigator), CEH (certified ethical hacker), and Microsoft Certified: Azure Security Engineer Associate.

Skills

Cybersecurity • System Administration Powershell • Incident Management
Microsoft Exchange • Ethical Hacking • Linux Microsoft Azure • Office 365
